### What this standard covers

This standard provides a single reel diameter (0.5 ~ 0.8) m of coal mine belt hoist brake (hereinafter referred to as "winch") product classification, testing content, test methods, inspection rules. Flameproof this standard applies to coal dust or explosive gases in coal mine underground movement type or supplemental materials designed for lifting (including waste dump and to elevate the bridge, etc.) of the winch. Standard does not apply to personnel transport winch.

### Document data

International classification (ICS): 73.010.

Chinese classification (CCS): D04.

Estimated length of the Chinese original: 13,113 words.
