Foreword

This document is in accordance with the provisions of GB/T 1.1-2020 "Guidelines for Standardization Work Part 1: Structure and Drafting Rules for Standardization Documents" drafting.

This document replaces LY/T 1956-2011 "Technical Regulations for Compilation of County-level Forest Land Protection and Utilization Planning", and is consistent with LY/T 1956-2011 in addition to structural adjustments and editorial changes, the main technical changes are as follows.

--- Changed the definitions of terms such as forest land, forest land holdings, and forest holdings (see Chapter 3, Chapter 3 of the 2011 edition);

---Increased the amount of natural forest, productivity, national public welfare forest land, provincial public welfare forest land, national and provincial public welfare forest land ratio the terms and definitions of natural forest protection key areas and forest land protection levels (see Chapter 3, Chapter 3 of the 2011 edition);

--- Deleted the terms and definitions of forest land productivity, key public welfare forest land, key public welfare forest land ratio, commercial forest, and key commercial forest land ratio meaning (see Chapter 3, Chapter 3 of the 2011 edition);

---Deleted the formulation of the planning framework (see Chapter 8 of the 2011 edition);

--- Deleted the establishment of forest land files (see Chapter 10 of the 2011 edition);

--- Increase the planning index system table (see Appendix A);

---Deleted the main technical indicators of the digital orthophoto DOM (see Appendix A of the 2011 edition);

---Changed the forest land protection classification and protection management measures (see Appendix B, Appendix C of the 2011 edition);

---Deleted the organizational structure and naming of the outcome documents (see Appendix H of the 2011 edition).

This document was proposed by the Forest Resources Management Division of the State Forestry and Grassland Administration.

This document is under the jurisdiction of the National Forest Resources Standardization Technical Committee (SAC/TC370).

1 Scope

This document stipulates the principles, procedures, methods and results requirements for the compilation of county-level forest land protection and utilization planning.

This document is applicable to the compilation of forest land protection and utilization planning in county-level administrative regions across the country. Inner Mongolia, Jilin, Longjiang, Daxing'an Mountains, Changbai Mountains, References for the preparation of the Forestry Bureau of Yichun Forest Industry (Forestry) Group Company and the regiment of Xinjiang Production and Construction Corps for the protection and utilization of forest land use.

2 Normative references

The contents of the following documents constitute the essential provisions of this document through normative references in the text. Among them, dated references for documents, only the version corresponding to the date is applicable to this document; for undated reference documents, the latest version (including all amendments) is applicable to this document.

GB/T 15968 Specifications for making planar maps of remote sensing images GB/T 20258.2 Basic geographic information element data dictionary Part 2.1.50001.10000 scale
