What this standard covers

This Standard specifies the method of infrared absorption method for the determination of carbon content. This Standard applies to the determination of phosphorus in the iron carbon content. Measurement range (mass fraction): 0.025% to 1.20%.

Document data

International classification (ICS): 77.100.

Chinese classification (CCS): H11.

Estimated length of the Chinese original: 7,716 words.

Supersedes the earlier edition YB/T 5339-2006.

Standards quoted by this document

GB/T 4010
