What this standard covers

This standard specifies the low concentration gas to coal -powered reciprocating engine generator sets made ??supporting the model name, technical requirements, test methods, inspection rules, marking, installation, transportation and storage. This standard applies to 200kW ~ 2000kW mine low concentration gas reciprocating internal combustion engine driven alternating current frequency generators.

Document data

International classification (ICS): 29.160.40.

Chinese classification (CCS): D09.

Estimated length of the Chinese original: 14,177 words.
