What this standard covers

This standard specifies the product classification, requirements, test methods, inspection rules, marking, packaging, transportation, storage and operating instructions for light-weight optical cables for bundled access networks. This standard is applicable to light-weight optical cables for beam-type access networks for outdoor non-self-supporting overhead, pipelines, tunnels, wall hangings, nailing and building introduction.

Document data

Chinese classification (CCS): M33.

Estimated length of the Chinese original: 29,254 words.
