What this standard covers

This standard specifies the definition, classification, models, requirements, test methods, inspection rules, marking, packaging, transportation, and storage of attenuators for mobile communication distribution systems. This standard applies to attenuators used in mobile communication distribution systems in the DC to 3800MHz frequency band. Attenuators in other frequency bands should refer to this standard.

Document data

International classification (ICS): 33.060.

Chinese classification (CCS): M30.

Supersedes the earlier edition YD/T 3251.7-2017.
