What this standard covers

This standard specifies polymer materials for coal mine reinforcement, polymer materials for coal mine water shutoff, polymer foam materials for coal mine filling and sealing, and polymer materials for coal mine spraying and wind blocking (hereinafter referred to as polymer materials for coal mines) The classification, technical requirements, test methods and inspection rules of This standard applies to polymer materials for coal mine reinforcement, polymer materials for water shutoff in coal mines, polymer foam materials for coal mine filling and sealing, and polymer materials for coal mine spraying and wind blocking.

Document data

International classification (ICS): 73.100.10.

Chinese classification (CCS): D09.

Estimated length of the Chinese original: 13,182 words.
