## What this standard covers

This standard specifies the gold-antimony alloys Determination of antimony content. This standard applies to AuSb alloy of antimony content. Measuring range: 0. 2% to 1. 2%.

## Document data

International classification (ICS): 77.040.30.

Chinese classification (CCS): H15.

Estimated length of the Chinese original: 5,588 words.

Supersedes the earlier edition YS/T 372.6-1994.
