What this standard covers

This standard specifies the method for the determination of carbon content in titanium diboride powder. This standard applies to the determination of carbon content in titanium diboride powder. Measuring range: 0.010% to 4.00%.

Document data

International classification (ICS): 77.040.30.

Chinese classification (CCS): H16.

Estimated length of the Chinese original: 8,888 words.
