What this standard covers

This standard specifies the classification and marking, technical requirements, test methods, inspection rules, permanent markings, and manufacturer-provided information for pole climbing straps (hereinafter referred to as "straps"). This standard applies to pole climbing straps used by personnel in the power, telecommunications, and broadcasting industries whose combined weight and load do not exceed 100 kg when climbing utility poles (or line poles).

Document data

International classification (ICS): 13.340.99.

Chinese classification (CCS): C73.

Estimated length of the Chinese original: 11,139 words.

Supersedes the earlier edition AQ 6109-2012.
