What this standard covers

This standard specifies the classification, technical requirements, test methods, inspection rules, marking, packaging, transportation, storage, and accompanying documents for lanthanum-cerium aluminum alloys. This standard applies to lanthanum-cerium aluminum alloys produced by the melt-melting method, mainly used as additives in the production of cast aluminum alloys and wrought aluminum alloys.

Document data

International classification (ICS): 13.340.20.

Chinese classification (CCS): C73.

Estimated length of the Chinese original: 14,159 words.
