What this standard covers

This standard specifies the basic safety requirements for the production of graphite and carbon products, as well as the requirements for plant layout, buildings and structures, production processes, and auxiliary facilities, and describes the corresponding verification methods. This standard applies to enterprises producing prebaked anodes, electrode graphite, and polyacrylonitrile-based carbon fibers.

Document data

International classification (ICS): 13.100.

Chinese classification (CCS): C65.

Estimated length of the Chinese original: 15,187 words.
