What this standard covers

This standard stipulates the basic conditions that institutions engaged in safety production training activities should have. This standard applies to the safety of personnel engaged in special operations, principal persons in charge and safety production management personnel of production and operation units such as mining, hazardous chemicals, oil and gas extraction, fireworks and firecrackers, and metal smelting (hereinafter referred to as the principal persons in charge and safety production management personnel of the enterprise). Training institutions that produce training activities and production and business units that independently carry out the above training activities.
