1 Foreword

AQ/T 4127-2018 was issued by Ministry of Emergency Management on 6 June 2026 and has been in force since 1 December 2026.

The AQ/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 8 pages in English translation.

2 Scope Preview

This standard specifies the basic requirements for the completion acceptance of newly built, renovated, and expanded projects (hereinafter referred to as "fireworks and firecracker projects") for fireworks and firecracker manufacturing and wholesale enterprises, as well as requirements regarding the forms, content, methods, and results of such acceptance. This document applies to the completion acceptance of safety facilities for fireworks and firecracker projects, as well as the overall safety completion acceptance of such projects.

AQ/T 4127-2018 falls under ICS 13.100, in the field of environment and health protection, safety.

This catalogue holds 33 other AQ/T standards in that field.

In this catalogue, AQ/T standards carry edition years from 2006 to 2025.

3 About this standard

Sector: Industrial Safety Standard

Issued by: Ministry of Emergency Management

English translation: about 8 pages (approximate)

Chinese original: about 9,954 characters

4 Related standards

Standards on related subjects:

TB/T 2344.1-2020 - Rail - Part 1: 43kg/m ~ 75kg/m rails

AQ 4273-2016 - Safety Specifications for Dedusting System Used in Dust Explosion Hazardous Area

AQ 3065-2025 - Safety specification for polycrystalline silicon production

AQ 4126-2018 - Specification for review design of engineering of fireworks

5 Classification and status

International classification (ICS): 13.100

Chinese Standard Classification (CCS): C 65

Prefix AQ/T: recommended standard.
