1 Foreword

BB/T 0011-1997 was issued by Ministry of Industry and Information Technology of the People's Republic of China on 16 January 1997 and has been in force since 1 March 1997.

The BB/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 5 pages in English translation.

2 Scope Preview

This standard provides a low foaming polyethylene waterproof barrier film classification, technical requirements, test methods and inspection rules. This standard applies to polyethylene as the main raw material by blow molding method low foaming polyethylene waterproof barrier film (including in this material as the substrate composite film) manufacture, use, distribution, and supervision and inspection.
