1 Foreword

BB/T 0058-2011 was issued by Ministry of Industry and Information Technology of the People's Republic of China on 15 June 2011 and has been in force since 1 October 2011.

The BB/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 9 pages in English translation.

2 Scope Preview

This standard specifies the coextruded multilayer packaging film overloaded, bags (hereinafter referred to reload film, bags) terms and definitions, classification, requirements, test methods, inspection rules and signs, packaging, transport and storage. This standard applies to polyethylene (PE), polypropylene (PP) resin as the main raw material, etc., through the multi-layer coextrusion blow molding process to produce multi-layer co-extruded blown film overloaded with high strength (including FFS film), bags. Single-layer film
