What this standard covers

This standard specifies the product classification, requirements, test methods, inspection rules, and requirements for marking, packaging, transportation, and storage of polyethylene terephthalate (PET) preforms for food packaging. This document applies to preforms made primarily from food packaging PET resin, injection molded for use in blow-molded food packaging containers. Preforms for other applications may refer to this standard.

Document data

International classification (ICS): 55.100.

Chinese classification (CCS): A82.

Supersedes the earlier edition BB/T 0060-2012.
