1 Foreword

CB/T 4488-2018 is issued by Ministry of Industry and Information Technology of the People's Republic of China.

The CB/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 8 pages in English translation.

2 Scope Preview

This standard specifies the steel brackets used in the ship repair process (the standard type of steel brackets and the frame type steel brackets in this standard) are designed, manufactured, used and maintained. Safety requirements and management responsibilities. This standard is applicable to the design, manufacture, use and maintenance of steel brackets in the production process of ships (including marine structures) and steel structures. Steel brackets for other purposes can be used as reference.
