1 Foreword

CB/T 8505-2017 was issued by Ministry of Industry and Information Technology of the People's Republic of China on 12 April 2017 and has been in force since 1 October 2017.

The CB/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 26 pages in English translation.

2 Scope Preview

This standard specifies the preparation content and depth requirements of the feasibility study report for the overall and individual projects of the fixed assets investment projects of the shipbuilding industry. This standard is applicable to the preparation of the feasibility study report for the whole project of fixed assets investment projects such as factories, research institutes and other new construction, expansion, technological transformation, etc. For the single project, the content can be appropriately simplified according to the

specific conditions of the project.

CB/T 8505-2017 is filed under Chinese Standard Classification P83, in the field of engineering construction.

This catalogue holds 695 other CB/T standards without an ICS number.

In this catalogue, CB/T standards carry edition years from 1991 to 2025.

3 About this standard

Sector: Shipping Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology of the People's Republic of China

English translation: about 26 pages (approximate)

Chinese original: about 39,347 characters
