1 Foreword

CB/T 8525-2017 was issued by Ministry of Industry and Information Technology of the People's Republic of China on 12 April 2017 and has been in force since 1 October 2017.

The CB/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 10 pages in English translation.

2 Scope Preview

This standard specifies the content and depth requirements for the preparation of project proposals for fixed assets investment projects in the shipbuilding industry. This regulation is mainly applicable to the preparation of project proposals for fixed assets investment projects such as factories, research institutes, and general construction, expansion, and technological transformation; for individual projects, the content can be appropriately simplified according to the specific conditions of the project.
