1 Foreword

CB/T 8528-2017 was issued by Ministry of Industry and Information Technology of the People's Republic of China on 12 April 2017 and has been in force since 1 October 2017.

The CB/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 50 pages in English translation.

2 Scope Preview

This standard stipulates the design rules, construction technical requirements and monitoring technical requirements of shipyard hydraulic steel sheet piles; it summarizes the product standards and technical specifications of steel sheet piles at home and abroad. This code is applicable to the design and construction of steel sheet piles for the construction of shipyards, ship platforms, docks, revetments and other structures in shipyards, as well as steel sheet piles for temporary support or cofferdams, anti-seepage

and water curtain steel sheet piles. Steel sheet piles in similar structures in the water transport and water conservancy industries can also be referred to.

CB/T 8528-2017 is filed under Chinese Standard Classification P83, in the field of engineering construction.

This catalogue holds 695 other CB/T standards without an ICS number.

In this catalogue, CB/T standards carry edition years from 1991 to 2025.

3 About this standard

Sector: Shipping Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology of the People's Republic of China

English translation: about 50 pages (approximate)

Chinese original: about 74,727 characters

4 Related standards

Standards on related subjects:

GB 50694-2011 - Code for design of fire protection and prevention of alcoholic beverages factory

CB/T 8526-2017 - Fixed Assets Investment Project Feasibility Study Reporting Provisions

CB/T 8525-2017 - Pipeline pressure test requirements

5 Classification and status

Chinese Standard Classification (CCS): P 83

Prefix CB/T: recommended standard.
