1 Foreword

CB/T 8530-2017 was issued by Ministry of Industry and Information Technology of the People's Republic of China on 12 April 2017 and has been in force since 1 October 2017.

The CB/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 18 pages in English translation.

2 Scope Preview

This standard stipulates all kinds of solid wastes generated during the production and repair of shipbuilding. According to the classification, the engineering design requirements for the disposal of different solid wastes and special solid waste storage yards are stipulated. This standard applies to the disposal of various solid wastes generated by shipbuilding, ship repair and offshore engineering equipment manufacturing enterprises and the design, construction and operation management of the corresponding storage

yards; it is not applicable to the prevention and control of radioactive solid waste.

CB/T 8530-2017 is filed under Chinese Standard Classification P83, in the field of engineering construction.

This catalogue holds 695 other CB/T standards without an ICS number.

In this catalogue, CB/T standards carry edition years from 1991 to 2025.

3 About this standard

Sector: Shipping Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology of the People's Republic of China

English translation: about 18 pages (approximate)

Chinese original: about 26,250 characters

4 Related standards

Standards on related subjects:

GB 50694-2011 - Code for design of fire protection and prevention of alcoholic beverages factory

CB/T 8526-2017 - Fixed Assets Investment Project Feasibility Study Reporting Provisions

CB/T 8525-2017 - Pipeline pressure test requirements

5 Classification and status

Chinese Standard Classification (CCS): P 83

Prefix CB/T: recommended standard.
