1 Foreword

CB/T 8531-2017 was issued by Ministry of Industry and Information Technology of the People's Republic of China on 12 April 2017 and has been in force since 1 October 2017.

The CB/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 48 pages in English translation.

2 Scope Preview

This standard specifies the basic content (such as engineering overview, engineering analysis, environmental impact prediction and evaluation, etc.) that needs to be covered in the environmental impact assessment work of shipyard construction projects and the depth of work of each specific environmental impact assessment work. This standard is applicable to the environmental impact assessment of new construction and reconstruction of shipbuilding projects, ship repair projects and offshore engineering equipment

manufacturing projects (including relocation and redevelopment), expansion and technical transformation projects.

CB/T 8531-2017 is filed under Chinese Standard Classification P83, in the field of engineering construction.

This catalogue holds 695 other CB/T standards without an ICS number.

In this catalogue, CB/T standards carry edition years from 1991 to 2025.

3 About this standard

Sector: Shipping Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology of the People's Republic of China

English translation: about 48 pages (approximate)

Chinese original: about 71,744 characters

4 Related standards

Standards on related subjects:

GB 50694-2011 - Code for design of fire protection and prevention of alcoholic beverages factory

CB/T 8526-2017 - Fixed Assets Investment Project Feasibility Study Reporting Provisions

CB/T 8525-2017 - Pipeline pressure test requirements

5 Classification and status

Chinese Standard Classification (CCS): P 83

Prefix CB/T: recommended standard.
