1 Foreword

CECS 129-2001 was issued by China Association for Engineering Construction Standardization on 15 November 2001.

The CECS prefix marks a association standard of the engineering construction sector, adopted voluntarily.

The document runs to 16 pages in English translation.

2 Scope Preview

This standard applies to: City sewer water, industrial water drains underground laying construction and acceptance. Other types of pipelines construction and acceptance may refer to, This standard provides only general engineering geological conditions, different diameter and stiffness with pressure and without pressure Glass-reinforced thermosetting resin sand pipeline construction and acceptance.

CECS 129-2001 is filed under Chinese Standard Classification P40, in the field of engineering construction.

This catalogue holds 136 other CECS standards without an ICS number.

In this catalogue, CECS standards carry edition years from 1988 to 2016.

3 About this standard
