1 Foreword

CECS 138-2002 was issued by China Association for Engineering Construction Standardization on 30 December 2002 and has been in force since 1 March 2003.

The CECS prefix marks a association standard of the engineering construction sector, adopted voluntarily.

The document runs to 41 pages in English translation.

2 Scope Preview

This standard applies to: urban utilities and industrial companies generally reinforced concrete pond water and wastewater engineering structural design, -, This standard is based on current national standard "water supply and drainage structures reinforced concrete pool is not designed for industrial enterprises with special requirements 50069 regulations the principles formulated, structural design specifications".

CECS 138-2002 is filed under Chinese Standard Classification P42, in the field of engineering construction.

This catalogue holds 136 other CECS standards without an ICS number.

In this catalogue, CECS standards carry edition years from 1988 to 2016.
