## 1 Foreword

CECS 165-2004 was issued by China Association for Engineering Construction Standardization on 10 May 2004 and has been in force since 15 June 2004.

The CECS prefix marks a association standard of the engineering construction sector, adopted voluntarily.

The document runs to 22 pages in English translation.

## 2 Scope Preview

This standard applies to: City of telecommunications, cable and other cable, cable needed trunk pipelines, wiring, piping and new urban zone, residential, industrial and mining engineering plastic pipes and other underground communications design.

CECS 165-2004 is filed under Chinese Standard Classification P76, in the field of engineering construction.

This catalogue holds 136 other CECS standards without an ICS number.

In this catalogue, CECS standards carry edition years from 1988 to 2016.

## 3 About this standard

Sector: Construction Industry Standard

Issued by: China Association for Engineering Construction Standardization

English translation: about 22 pages (approximate)

Chinese original: about 32,369 characters
