1 Foreword

CECS 182-2005 was issued by China Association for Engineering Construction Standardization on 24 May 2005 and has been in force since 1 October 2005.

The CECS prefix marks a association standard of the engineering construction sector, adopted voluntarily.

The document runs to 122 pages in English translation.

2 Scope Preview

This standard applies to: the building or group of buildings Communication Wang slightly systems, information network systems, construction equipment monitoring system, automatic fire alarm and fire linkage system, security system, integrated wiring system, intelligent system integration, power and ground, Environment and residential (community) and intelligent features, performance and installation quality the ultimate test. This standard also applies to the implementation of intelligent building engineering and quality control of the whole process quality inspection and self-test.

CECS 182-2005 is filed under Chinese Standard Classification P33, in the field of engineering construction.

This catalogue holds 136 other CECS standards without an ICS number.

In this catalogue, CECS standards carry edition years from 1988 to 2016.
