1 Foreword

CECS 230-2008 was issued by China Association for Engineering Construction Standardization on 17 July 2008 and has been in force since 1 November 2008.

The CECS prefix marks a association standard of the engineering construction sector, adopted voluntarily.

The document runs to 109 pages in English translation.

2 Scope Preview

This standard applies to housing and 10 floors above the height of more than 28m 10-storey high-rise buildings or steel-concrete composite structure design.

CECS 230-2008 falls under ICS 91.080.40, in the field of construction materials and building.

This catalogue holds 144 other CECS standards in that field.

In this catalogue, CECS standards carry edition years from 1988 to 2016.
