## 1 Foreword

CECS 232-2007 was issued by China Association for Engineering Construction Standardization on 26 December 2007 and has been in force since 30 December 2007.

The CECS prefix marks a association standard of the engineering construction sector, adopted voluntarily.

The document runs to 21 pages in English translation.

## 2 Scope Preview

This standard applies to newly built, multilayer expansion and renovation, tall buildings and industrial buildings, the internal temperature of not more than 40 continuous drainage degrees Celsius, the instantaneous temperature less than 80 degrees Celsius drainage design specific gravity discharge of AD-type single riser drainage system, construction of several acceptance.

CECS 232-2007 falls under ICS 91.140.80, in the field of construction materials and building.

This catalogue holds 144 other CECS standards in that field.

In this catalogue, CECS standards carry edition years from 1988 to 2016.

## 3 About this standard
