1 General Provisions
2 Terms and Symbols
2.1 Terms
2.2 Symbols
3 Materials
3.1 General Requirements
3.2 Determination of Estimated Strength of Concrete with Dilled Cores
3.3 Drilled Core Correction Method
4 Major Equipments
4.2 Tension Cable and Anchor
4.3 Load
4.4 Detailing requirements
4.5 Artificial Filling Foundation Treatment by Heavy Tamping
5 Structural Calculation
5.2 Analysis of Initial State of Form
5.3 Analysis of Effects under Loads
5.4 Analysis of Pattern Cutting
5.5 Construction Quality Control and Monitor
5.6 Environmental Protection
6 Processing of Core or Technical Requirements of Specimen
6.2 Connection between Membrane Materials
6.3 Connection between Membrane and Rigid Boundary
6.4 Connection between Membrane and Flexible Boundary
6.5 Painting
7 Test of Core Specimen and Calculation of Compressive Strength
7.2 Inspection items
7.3 Qualification judgment
7.4 Maintenance
8 Erection
8.1 Erection of Steel Members and Tension Cables
8.2 Erection of Membrane Elements

8.3 Application of Pretension Force

8.4 Nondestructive Testing of Connection of Structural Steel Casting

8.5 Marking, Storage and Transport

9 Acceptance

1 Foreword

CECS 256-2009 was issued by China Association for Engineering Construction Standardization on 1 June 2009 and has been in force since 1 August 2009.

The CECS prefix marks a association standard of the engineering construction sector, adopted voluntarily.

The document runs to 19 pages in English translation.

2 Scope Preview

This standard applies to non-seismic area and seismic intensity of 8 degrees and 8 degrees below the area to autoclaved fly ash bricks and brick wall materials for the general industrial and civil design, construction and acceptance. Design and construction of autoclaved fly ash bricks and brick masonry structures, in addition to compliance with this criterion, there should be consistent with existing national standards.

CECS 256-2009 falls under ICS 91.080.30, in the field of construction materials and building.

This catalogue holds 144 other CECS standards in that field.

In this catalogue, CECS standards carry edition years from 1988 to 2016.

3 About this standard

Issued by: China Association for Engineering Construction Standardization

English translation: about 19 pages

Chinese original: about 28,294 characters

4 Related standards

Standards on related subjects:

GB 55007-2021 - Code for design of masonry structures

GB 50211-2014 - Code for construction and acceptance of industrial furnaces building

JG/T 163-2013 - Couplers for Rebar Mechanical Splicing

CECS 432-2016 - Technical specification for application of autoclaved silicate tongue-and-groove small block

CECS 281-2010 - Technical specification for non-bearing masonry walls

CECS 257-2009 - Technical code for concrete brick masonry structures building

5 Classification and status

International classification (ICS): 91.080.30

Chinese Standard Classification (CCS): P 24

Prefix CECS: association standard of the engineering construction sector, adopted voluntarily.
