1 Foreword

CECS 259-2009 was issued by China Association for Engineering Construction Standardization on 27 July 2009 and has been in force since 1 October 2009.

The CECS prefix marks a association standard of the engineering construction sector, adopted voluntarily.

The document runs to 31 pages in English translation.

2 Scope Preview

This standard applies to newly built, expansion and renovation of industrial and civil engineering and urban water supply and water supply projects in low resistance backflow prevention device design choice, commissioning inspection and maintenance management of construction and installation.

CECS 259-2009 falls under ICS 91.200, in the field of construction materials and building.

This catalogue holds 144 other CECS standards in that field.

In this catalogue, CECS standards carry edition years from 1988 to 2016.
