1 Foreword

CECS 262-2009 was issued by China Association for Engineering Construction Standardization on 23 September 2009 and has been in force since 1 December 2009.

The CECS prefix marks a association standard of the engineering construction sector, adopted voluntarily.

The document runs to 24 pages in English translation.

2 Scope Preview

This standard applies to the ordinary civil and industrial construction projects foam cement floor radiant heating insulation layer, design filled with cement mortar layer, construction and acceptance. Change, expansion project to address security load existing buildings be checked.

CECS 262-2009 falls under ICS 91.140.20, in the field of construction materials and building.

This catalogue holds 144 other CECS standards in that field.

In this catalogue, CECS standards carry edition years from 1988 to 2016.
