1 Foreword

CECS 263-2009 was issued by China Association for Engineering Construction Standardization on 3 November 2009.

The CECS prefix marks a association standard of the engineering construction sector, adopted voluntarily.

The document runs to 114 pages in English translation.

2 Scope Preview

This standard applies to newly built, expansion, remodeled large civil and industrial building space and design of intelligent active fire sprinkler systems, construction and acceptance.

CECS 263-2009 falls under ICS 13.220.30, in the field of environment and health protection, safety.

This catalogue holds 12 other CECS standards in that field.

In this catalogue, CECS standards carry edition years from 1988 to 2016.

3 About this standard

Issued by: China Association for Engineering Construction Standardization

English translation: about 114 pages

Chinese original: about 172,138 characters

4 Related standards

Standards on related subjects:

GB 4066-2017 - Powder extinguishing agent

GA 211-2009 - High temperature-resistant test methods for smoke and heat exhaust ventilators

GA 578-2005 - Super fine powder fire extinguishing agent

CECS 387-2014 - Technical specification for underpinning of seismic isolators to existing masonry structure

CECS 386-2014 - Technical specification for external storage pressure fire extinguishing system

5 Classification and status

International classification (ICS): 13.220.30

Chinese Standard Classification (CCS): C 83

Prefix CECS: association standard of the engineering construction sector, adopted voluntarily.
