8.5 Marking, Storage and Transport

9 Acceptance

1 Foreword

CECS 264-2009 was issued by China Association for Engineering Construction Standardization on 15 October 2009.

The CECS prefix marks a association standard of the engineering construction sector, adopted voluntarily.

The document runs to 31 pages in English translation.

2 Scope Preview

This standard applies to the working pressure of less than 10kPa, the ambient temperature is not higher than 60°C plastic composite pipe for construction of gas pipeline project.

CECS 264-2009 falls under ICS 91.140.40, in the field of construction materials and building.

This catalogue holds 144 other CECS standards in that field.

In this catalogue, CECS standards carry edition years from 1988 to 2016.

3 About this standard

Issued by: China Association for Engineering Construction Standardization

English translation: about 31 pages

Chinese original: about 47,484 characters

5 Classification and status

International classification (ICS): 91.140.40

Chinese Standard Classification (CCS): P 47

Prefix CECS: association standard of the engineering construction sector, adopted voluntarily.
