1 Foreword

CECS 270-2010 was issued by China Association for Engineering Construction Standardization on 8 September 2010 and has been in force since 1 December 2010.

The CECS prefix marks a association standard of the engineering construction sector, adopted voluntarily.

The document runs to 30 pages in English translation.

2 Scope Preview

This standard applies to building water medium temperature of not more than 50°C (including drinking water), building drainage, outdoor water supply and sewer project design, construction and acceptance.

CECS 270-2010 falls under ICS 91.140.60; 91.140.80, in the field of construction materials and building.

This catalogue holds 144 other CECS standards in that field.

In this catalogue, CECS standards carry edition years from 1988 to 2016.
