1 Foreword

CECS 272-2010 was issued by China Association for Engineering Construction Standardization on 20 May 2010 and has been in force since 1 August 2010.

The CECS prefix marks a association standard of the engineering construction sector, adopted voluntarily.

The document runs to 51 pages in English translation.

2 Scope Preview

This standard applies to seismic intensity is not greater than 8 degrees, storey house does not exceed 50m, reinforced concrete frame bent light steel building structures or non-load-bearing interior and exterior, as well as demolition of reinforced concrete shear wall insulation free template design, construction and acceptance.

CECS 272-2010 falls under ICS 91.060.10, in the field of construction materials and building.

This catalogue holds 144 other CECS standards in that field.

In this catalogue, CECS standards carry edition years from 1988 to 2016.
