1 Foreword

CECS 293-2011 was issued by China Association for Engineering Construction Standardization on 26 April 2011 and has been in force since 1 September 2011.

The CECS prefix marks a association standard of the engineering construction sector, adopted voluntarily.

The document runs to 42 pages in English translation.

2 Scope Preview

This standard applies to existing and the construction of civil and industrial buildings in concrete structures, masonry structures, crack detection of steel structures, crack treatment, construction and testing, not for special purposes or for use in a special environment, housing and crack detection and treatment of special structures.

CECS 293-2011 falls under ICS 91.040.01, in the field of construction materials and building.

This catalogue holds 144 other CECS standards in that field.

In this catalogue, CECS standards carry edition years from 1988 to 2016.
