1 Foreword

CECS 294-2011 was issued by China Association for Engineering Construction Standardization on 23 May 2011 and has been in force since 1 August 2011.

The CECS prefix marks a association standard of the engineering construction sector, adopted voluntarily.

The document runs to 34 pages in English translation.

2 Scope Preview

This standard applies to the following projects: roof rain water and ground handling and utilization, urban and community life of rain sewage treatment and utilization, rural life rain sewage treatment and utilization, landscape water, inferior primary water purification, landfill leachate treatment. Industrial (textile industry, chemical industry, metallurgical coking industry, etc.) and the use of organic waste water treatment can also perform this procedure. This procedure does not apply to wastewater treatment works: inorganic waste, radioactive waste, toxicity of industrial organic wastewater. This procedure does not apply to rain, wastewater utilization project

CECS 294-2011 carries no ICS number and no Chinese Standard Classification code.

This catalogue holds 316 other CECS standards.

Of the 180 CECS standards that do carry an ICS number, 145 (81%) fall under ICS 91, in the field of construction materials and building.
