1 Foreword

CECS 296-2011 was issued by China Association for Engineering Construction Standardization on 17 June 2011 and has been in force since 1 September 2011.

The CECS prefix marks a association standard of the engineering construction sector, adopted voluntarily.

The document runs to 25 pages in English translation.

2 Scope Preview

This standard applies to newly built, civil reconstruction and expansion of the lighting, air-conditioning fan coil, intelligent control shading and other terminal equipment. The main achievement of the passive wireless intelligent control system used in various types of civil radio signal transmission.

CECS 296-2011 falls under ICS 91.140.01, in the field of construction materials and building.

This catalogue holds 144 other CECS standards in that field.

In this catalogue, CECS standards carry edition years from 1988 to 2016.
