1 Foreword

CECS 300-2011 was issued by China Association for Engineering Construction Standardization on 19 October 2011 and has been in force since 1 June 2012.

The CECS prefix marks a association standard of the engineering construction sector, adopted voluntarily.

The document runs to 85 pages in English translation.

2 Scope Preview

This standard applies to industrial and civil construction steel, reinspection of steel structures, steel structures and steel selection after entering.

CECS 300-2011 falls under ICS 91.080.10, in the field of construction materials and building.

This catalogue holds 144 other CECS standards in that field.

In this catalogue, CECS standards carry edition years from 1988 to 2016.
