1 Foreword

CECS 373-2014 was issued by China Association for Engineering Construction Standardization on 7 May 2014 and has been in force since 1 September 2014.

The CECS prefix marks a association standard of the engineering construction sector, adopted voluntarily.

The document runs to 25 pages in English translation.

2 Scope Preview

This standard is applicable to the design, manufacture, use and management of three-phase disc brake asynchronous motor for electric lifting and synchronous control system of construction-attached lift scaffolding and its special low-speed electric chain hoist and three-phase disc brake.

CECS 373-2014 is filed under Chinese Standard Classification P 97, in the field of engineering construction.

This catalogue holds 136 other CECS standards without an ICS number.

In this catalogue, CECS standards carry edition years from 1988 to 2016.
