1 Foreword

CECS 376-2014 was issued by China Association for Engineering Construction Standardization on 26 June 2014 and has been in force since 1 October 2014.

The CECS prefix marks a association standard of the engineering construction sector, adopted voluntarily.

The document runs to 30 pages in English translation.

2 Scope Preview

This standard applies to the new building and existing buildings, the use of modified inorganic powder composite architectural decorative sheet of engineering design, construction and acceptance.

CECS 376-2014 falls under ICS 91.180, in the field of construction materials and building.

This catalogue holds 144 other CECS standards in that field.

In this catalogue, CECS standards carry edition years from 1988 to 2016.
