1 Foreword

CECS 380-2014 was issued by China Association for Engineering Construction Standardization on 6 August 2014 and has been in force since 1 December 2014.

The CECS prefix marks a association standard of the engineering construction sector, adopted voluntarily.

The document runs to 18 pages in English translation.

2 Scope Preview

This standard applies to the design, construction and acceptance of the expansion and expansion of the industrial and civil buildings using the expanded perlite insulation board thin plastering external wall insulation project. Expanded perlite insulation board thin plaster external insulation works in addition to this standard should be consistent with the existing national standards should be consistent with the provisions.

CECS 380-2014 falls under ICS 91.120.10, in the field of construction materials and building.

This catalogue holds 144 other CECS standards in that field.

In this catalogue, CECS standards carry edition years from 1988 to 2016.
