1 Foreword

CECS 397-2015 was issued by China Association for Engineering Construction Standardization on 26 March 2015 and has been in force since 1 July 2015.

The CECS prefix marks a association standard of the engineering construction sector, adopted voluntarily.

The document runs to 25 pages in English translation.

2 Scope Preview

This Standard applies to the use of construction waste, environmental safety testing sludge and industrial solid waste production of cement-based and recycled materials when engineering applications.

CECS 397-2015 is filed under Chinese Standard Classification Q 12, in the field of building materials.

This catalogue holds 136 other CECS standards without an ICS number.

In this catalogue, CECS standards carry edition years from 1988 to 2016.
