1 Foreword

CECS 407-2015 was issued by China Association for Engineering Construction Standardization on 15 July 2015 and has been in force since 1 November 2015.

The CECS prefix marks a association standard of the engineering construction sector, adopted voluntarily.

The document runs to 31 pages in English translation.

2 Scope Preview

This standard applies to the design, factory inspection, construction, acceptance, safety, operation and maintenance of integrated prefabricated pumping station in new construction, renovation and expansion of water supply, drainage and waterlogging prevention and control projects.

CECS 407-2015 falls under ICS 91.140.80, in the field of construction materials and building.

This catalogue holds 144 other CECS standards in that field.

In this catalogue, CECS standards carry edition years from 1988 to 2016.
