1 General Provisions
2 Terms and Symbols
2.1 Terms
2.2 Symbols
3 Materials
3.1 General Requirements
3.2 Determination of Estimated Strength of Concrete with Dilled Cores
3.3 Drilled Core Correction Method
4 Major Equipments
4.2 Tension Cable and Anchor
4.3 Load
4.4 Detailing requirements
4.5 Artificial Filling Foundation Treatment by Heavy Tamping
5 Structural Calculation
5.2 Analysis of Initial State of Form
5.3 Analysis of Effects under Loads
5.4 Analysis of Pattern Cutting
5.5 Construction Quality Control and Monitor
5.6 Environmental Protection
6 Processing of Core or Technical Requirements of Specimen
6.2 Connection between Membrane Materials
6.3 Connection between Membrane and Rigid Boundary
6.4 Connection between Membrane and Flexible Boundary
6.5 Painting
7 Test of Core Specimen and Calculation of Compressive Strength
7.2 Inspection items
7.3 Qualification judgment
7.4 Maintenance
8 Erection
8.1 Erection of Steel Members and Tension Cables
8.2 Erection of Membrane Elements

8.5 Marking, Storage and Transport
9 Acceptance

1 Foreword

CECS 409-2015 was issued by China Association for Engineering Construction Standardization on 31 July 2015 and has been in force since 1 November 2015.

The CECS prefix marks a association standard of the engineering construction sector, adopted voluntarily.

The document runs to 53 pages in English translation.

2 Scope Preview

This standard applies to the construction of low energy consumption and seismic requirements, and to meet the existing national standards, "Residential Building Code" GB 50368 fire rating of not less than three, building height of 15m below the ground level of three layers and below, The height of not more than 5.1m of the molded polystyrene module cast-in-place concrete or recycled concrete shear wall structure and cold storage and agricultural greenhouse design, construction, acceptance.

CECS 409-2015 falls under ICS 91.084.40, in the field of construction materials and building.

This catalogue holds 144 other CECS standards in that field.

In this catalogue, CECS standards carry edition years from 1988 to 2016.

3 About this standard

Issued by: China Association for Engineering Construction Standardization

English translation: about 53 pages

Chinese original: about 80,835 characters

4 Related standards

Standards on related subjects:

JG/T 163-2013 - Couplers for Rebar Mechanical Splicing

CECS 408-2015 - Design specification for specified concrete filled steel tubular members

CECS 406-2015 - Technical specification for application of composite wall of cast-in-place foamed concrete with light steel keel

CECS 400-2015 - Technical specification for screw anchor

5 Classification and status

International classification (ICS): 91.084.40

Chinese Standard Classification (CCS): P 25

Prefix CECS: association standard of the engineering construction sector, adopted voluntarily.
