1 Foreword

CECS 413-2015 was issued by China Association for Engineering Construction Standardization on 9 September 2015 and has been in force since 1 December 2015.

The CECS prefix marks a association standard of the engineering construction sector, adopted voluntarily.

The document runs to 54 pages in English translation.

2 Scope Preview

This standard is applicable to the design, installation, use, dismantling and management of lift platform used in engineering structure construction.

CECS 413-2015 falls under ICS 91.22, in the field of construction materials and building.

This catalogue holds 144 other CECS standards in that field.

In this catalogue, CECS standards carry edition years from 1988 to 2016.
