1 Foreword

CECS 414-2015 was issued by China Association for Engineering Construction Standardization on 14 September 2015 and has been in force since 1 December 2015.

The CECS prefix marks a association standard of the engineering construction sector, adopted voluntarily.

The document runs to 34 pages in English translation.

2 Scope Preview

This standard is applicable to the design, construction and acceptance of the composite ?-crystalline random copolymerized polypropylene (NFPP-RCT) piping with water as the transmission medium for new construction, renovation and expansion. The pipeline shall not be used for building indoor fire water supply system.

CECS 414-2015 is filed under Chinese Standard Classification P 42, in the field of engineering construction.

This catalogue holds 136 other CECS standards without an ICS number.

In this catalogue, CECS standards carry edition years from 1988 to 2016.
