1 Foreword

CECS 416-2015 was issued by China Association for Engineering Construction Standardization on 29 September 2015.

The CECS prefix marks a association standard of the engineering construction sector, adopted voluntarily.

The document runs to 39 pages in English translation.

2 Scope Preview

This standard is applicable to the design, construction, acceptance, operation and maintenance of the regulating reservoirs which are mainly used for controlling the runoff pollution of urban areas. In addition to conforming to this standard, the design, construction, acceptance, operation and maintenance of the regulating reservoir shall conform to the relevant provisions of the relevant national standards.

CECS 416-2015 falls under ICS 91.140.80, in the field of construction materials and building.

This catalogue holds 144 other CECS standards in that field.

In this catalogue, CECS standards carry edition years from 1988 to 2016.
