1 Foreword

CECS 455-2016 was issued by China Association for Engineering Construction Standardization on 21 November 2016 and has been in force since 1 February 2017.

The CECS prefix marks a association standard of the engineering construction sector, adopted voluntarily.

The document runs to 41 pages in English translation.

2 Scope Preview

This standard applies to the nominal AC voltage of 1000 V and below or DC voltage of 1500 V and below the general industrial and civil construction indoor dry places, centralized power supply emergency power system construction and acceptance.

CECS 455-2016 falls under ICS 29.200, in the field of electrical engineering.

This catalogue holds 316 other CECS standards.

In this catalogue, CECS standards carry edition years from 1988 to 2016.
